 Rosetta Stone
 Language-Learning Software**

If you have always wanted to learn Spanish or French, or if English is your second language and you want to improve your pronunciation and comprehension, come to the Leesburg Public Library and try Rosetta Stone!

This popular language learning software is available on all public access computers in both the Adult and Youth departments. The first time you come in to use Rosetta Stone you will need to register at the Adult Services (Reference) desk on the second floor. After that original registration, you only need to log onto Rosetta Stone with the user name and password that you have set up on your initial Rosetta Stone session.

The software is set up to track your progress as you learn. The Library has the following levels available: English levels 1-4, French level 1, Spanish (Latin American) levels 1-5.
